Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/8/04 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 29, 67, 68, are rejected under 35 U.S.C. 102(b) as being anticipated by Guiset (USPN 4,044,401).

With reference to Figure 1, Guiset discloses an artificial urinary diversion system comprising a urinary bladder 1 having an axial direction that can be comprised of three portions. The first portion is considered to be the lowest point in the area of reference numeral 20, the second portion is in the middle in the area of reference numeral 5 and the third portion is the top-most portion in the area of reference numeral 30. The first and second portions are smaller in cross-section than the upper portion of the device. The first portion comprises an outlet 4 and sphincter mechanism 18 for opening and closing said at least one outlet to expel liquid contained

within chamber 1. The third portion comprises inlet 3 and sphincter mechanism 17 for opening and closing the sphincter. The third portion comprises a second inlet in the area of reference numeral 28. The sphincter mechanism can comprise an anti-reflux valve such as a Bjork type valve or a STARR-valve and may be made in a ring-like shape (3:1-24). The first, second and third portions are formed integrally. The device disclosed by Guiset inherently has a three-dimensional shape capable of containing a volume of fluid and therefore would have a plurality of cross-sectional areas if divided up into portions.

The device disclosed by Guiset may also have a cylindrical shape (4:59-66) and therefore would suit the function recited in claim 29 if the values for a_1 - a_6 were all equal to zero. The cylinder would have a first outline having a shape of a straight line in the plane parallel to the longitudinal direction. The other side of the cylinder would provide a second outline having a shape of a straight line in the plane parallel to the longitudinal direction.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kamrin R. Landrem whose telephone number is 571-272-4752. The examiner can normally be reached on 8:00-5:00, Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
